

FALL HOME PERFORMANCE CHECKLIST

HOME HEATING SYSTEMS	
\bigcirc	Replace air filter. Install MERV 12 or higher.
\bigcirc	Schedule fall maintenance for furnace or heat pump. Call GreenSavers at 503.223.8767.
\bigcirc	Program thermostat. Turn down heat automatically at night and when away from home.
\bigcirc	Clean ducts. Better Air NW is recommended: 503.208.8351.
IN YOUR ATTIC	
\bigcirc	Look for signs of animal activity. Look for broken screens, missing or torn insulation.
\bigcirc	Check for leaks. Check holes in roofing, damp spots in insulation, stains on ceilings.
\bigcirc	Clear debris from vents. Be sure ridge vents and vents at eaves are free of plants and debris.
PLUMBING	
\bigcirc	Drain the water heater. This removes sediment that can cause damage.
\bigcirc	Check for leaks and signs of corrosion. Look at all exposed pipes.
GUTTERS AND DOWNSPOUTS	
\bigcirc	Keep gutters and downspouts clear.
\bigcirc	Look for pooling water. Downspouts should direct water at least 10 feet from foundation.
EXTERIOR	
\bigcirc	Inspect your siding. Look for peeling paint, missing brick or mortar, cracked stucco, or stains.
\bigcirc	Pay attention to the foundation. Examine the foundation for cracks and bulges.
\bigcirc	Look at windows and doors: Is there damage to frames, weather stripping or caulking?
\bigcirc	Check the roof. Are there cracks, missing shingles, or crumbling pieces? What about moss?
